Respected Principal Sir,

I wanted to share my thoughts on recent Vishaltrapatnam trip. We visited Dolphin hill light house, Rushi konda beach, Kailasagiri Park, Submarine Museum, Borra Caves

→ Borra Caves

Exploring the limestone formation gave me a vivid lesson in geological processes and the Importance of preserving natural heritage

→ light house:-

Seeing ^{how} light house guides ships at night time highlighted the role of technology.

→ Kailash Giri Park :- The Park's scenic views and the temple at top of hill
