

The time we spent there was so memorable, it genuinely felt like we could stay there forever. After a refreshing sea-water shower, the scenic beauty of Kailasagiri park was beautiful, offering a view of the whole vizag and the beach. our visit to the submarine museum was a profoundly moving experience. The exhibit was so good that it filled us with a deep pride for the Indian Navy. Learning about their challenging lives of our naval heroes made us truly appreciate their service. Though we stood in line for long time, the visit absolutely worth it. we managed to squeeze in rishikonda beach again as we are left with lots of time, I spent memorable time just watching the waves before ending my day. Finally, the Boracay visit on the last day was full of surprising and fascinating facts that made journey to home even more enriching.

None of this would have been possible without the constant reassuring presence of our teachers. They were with our 24/7, truly acting as our mother and father throughout the trip. Their dedication ensured safety and enjoyment of every student.

Thank you sir, for giving me this important and memorable moments in my life. It was a perfectly executed trip from start to finish. And hope still more trips to our juniors are planned. once again thank you sir!!

With heartfelt gratitude

D. Yashitha Reddy.
