Dear sir,

I am expressing my real experience on the first annual day of school, we didn't felt about the dance that we didn't dance in the concert. but you gave an great dance of keeping stalls. I am in a food stall where we invested ₹1000 also we get an profit of ₹500, we totally get ₹7500

I have a little problem that is instead of keeping 3 stall per class you can keep 5 to 7 stalls per class for future. This was my second time of keeping stall & taking an role in stall. The first experience of keeping stalls is so nice where I am an sales man also I liked that role and in the second stall I took a role as a sales man & chef I nearly brought 10-15 parents & cooked french fries & potato cheese balls.

Thank you
yours truly
